All of you know that this year's "Obon" started on August 13th, then ended on August 16th. During this season, Japanese people travel around somewhere, go back to their home, or take a vacation. This year I wanted to travel too. So I went to Korea. At there, I went to the "Everland" that is the most popular theme park in Korea.

I spent the whole day by playing the craziest rides such as roller coaster, eating interesting foods and shopping or doing some other exciting things. Additionally, "Zootopia" section was so fabulous. There was a bus that you can visit the area as if you are in the middle of safari. A guide showed us to feed the Giraffe. It was so unusual. Panda was so cute too. Like a soft toy. I really enjoyed there. In my opinion, Everland is the most entertaining family park in Korea.

When I came to Tokyo I landed in Osaka. In Osaka, there are so many nice places to travel. But Time was so little to see all of them. Then I went to Osaka Aquarium “Kaiyukan”. There are vast species of ocean animal around the world. It was so inspiring and unusual for me. I saw very odd sea animals and got information about them.

This holiday was very eye-opening for me. If you want to travel somewhere, I recommend you to prepare for travel as early as you can. If you plan early, travel costs can be cheap.
